Week 1 – Maths

Base facts example:

Week 2 Maths

Formal written method example:

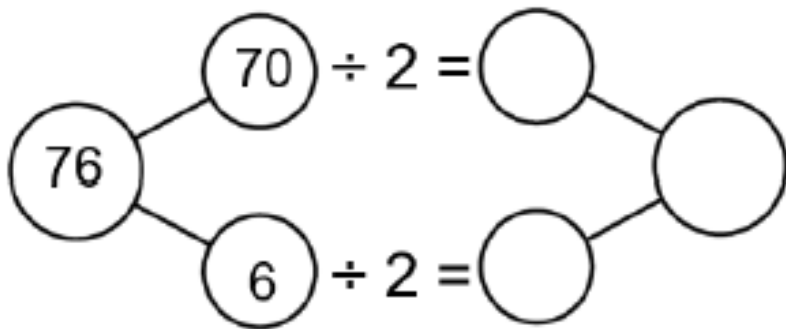

123 × 5

1st Step	2nd Step	3rd Step
$\begin{array}{r} 123 \\ \times 5 \\ \hline 615 \end{array}$	$\begin{array}{r} 123 \\ \times 5 \\ \hline 15 \end{array}$	$\begin{array}{r} 123 \\ \times 5 \\ \hline 615 \end{array}$

Week 3

Maths

Partitioning example – base facts

History

This is Boudicca.

- She fought against the Romans when they came to take her land.
- Her army destroyed the Roman towns of St Albans, Colchester and London.

What did Boudicca do?

- Boudicca led her army against the Romans in AD60. She is remembered as a strong leader and ferocious warrior.
- She fought in a famous battle called the **Battle of Watling Street**.
- The Roman army won the battle against Boudicca and her army. They ruled Britain for the next 350 years.
- Boudicca lived many years ago, so we don't have much information about her. But we can use objects from the past to help us understand her story.

Did you know?

- Her name comes from the word 'Bouda'. This means **victory**.
- There are **no pictures** of Boudicca, so we don't know what she looked like. Roman historian Tacitus said she had long red hair that hung below her waist.
- Boudicca's soldiers painted themselves **blue** to make themselves look more frightening!

Week 4

Maths

Example of short division

$$186 \div 6 =$$
$$\begin{array}{r} 031 \\ 6 \overline{) 186} \\ \underline{6} \\ 18 \\ \underline{18} \\ 0 \end{array}$$

no groups of 6 can be made

$1 \times 6 = 6$

$3 \times 6 = 18$

Week 6 Maths

Example of long division

$$\begin{array}{r} 11 \\ 3 \overline{) 339} \\ \underline{-3} \\ 03 \\ \underline{-3} \\ 0 \end{array}$$
